Description

This two-bedroom maisonette in Pareklisia is ready for immediate move-in, with a completion date of 2025 and 76 square meters of internal space arranged over its own floors. The interior is fully furnished, so a tenant can bring only personal belongings and start living there right away. Pets allowed.

The layout gives each of the two bedrooms its own bathroom, a practical setup for shared living or for a household that values separate space. Central air conditioning runs through the unit, keeping temperature consistent across the seasons, and the finish throughout reflects the property's 2025 build date with a modern feel. An A energy efficiency rating keeps running costs in check.

The maisonette sits within a gated complex, adding a layer of security and control over who comes and goes on the property.

Pareklisia is a village in the Limassol District of Cyprus, on the eastern side of the greater Limassol area, where traditional village houses sit alongside newer low-rise residential development. Villages in this part of the Limassol District typically carry local tavernas, small shops, and a village square, giving residents everyday essentials without needing to travel into the city center. The pace and building density here differ from central Limassol, offering a more open, lower-rise residential setting while still keeping the city itself within reach.
