Description

This is a lovely piece of land of 1655 m2 in Apesia village with building density of 30% and coverage of 20% over 2 floors with height of 8.3 meters.

The beautiful and picturesque village of Apesia has emerged for centuries in the south of the Troodos mountain range, in the middle of the rivers Garyllis and Limnatis.

It is a semi-mountainous village of the Lemesos District, built on an altitude of 480 metres.

In Apesia, traditional elements coexist with the modern ones. On the one side there is a traditional housing with small stone built residences and on the other side there are new bigger residences spread west and southwest of the old housing.
